

We Use Superior Products. How does this affect you?

We don't "cut corners" with your investment. We will only use the best products on your stone to ensure we provide the highest quality finished product. We take the extra steps other company miss. For example, once your edge is laminated or glued together, we re-saw your edge. This cuts off any excess glue left behind and give you a more seamless finished edge.

We are licensed, bonded and insured. How does this affect you?

You can rest assured knowing we have taking all the steps necessary to keep you, the property owner safe. During the licensing process we have had FBI background checks and finger printing done. Be sure you can trust who's coming into your home or business. Our business is fully insured. If someone gets hurt while on your property, you can have peace of mind knowing we have already protected you and our employees.
